FISH FOR THE POTOMAC. - The Baltimore

Many of these will be placed in the neighborhood of pumber of boats passed through on Sunday. Fort Pendleton; they will be transported by rail to Oakland and wagoned across. This is the first shipment from the lot of 200,000 eggs re- steamer Mary Washington, is being raised. ceived about the 1st of October from Professor Baird's camp on the McCloud river, California. Mr. Ferguson is very hopeful of the success of stocking the Potomac and other rivers of the State with this very valuable fish, as the success of their introduction into the Delaware river has been demonstrated beyond a doubt, several fish weighing from five to ten and a half pounds having been taken in that river, the result of stocking that stream a year previous to the commencement of the work in Maryland by the New Jersey and Pennsylvania commissioners. Mr. Ferguson has just received advices of the anticipated shipment of 200,000 more eggs from the McCloud river. These will be hatched at Druid Hill hatching house and distributed as usual."

TRAMPS. - With the return of cold weather comes the tramp lodger nuisance, at the station houses, in all of the cities and large towes. This subject will be treated in a series of separate papers engaged from writers who stand in the front rank among Americans, both in qualities of style and in keen insight of nature. Among them are Mr. R. E. Robinson, John Burroughs and Maurice Thompson.

"Ro.cy," by Edward Eggleston (anthor of "The Hoosier Schoolmaster," &c.) This new novel will doubtless be the important American serial of the year. American Sports-Some of the most novel and

entertaining of these papers are yet to appear, the scenes of which will be in the West, the Middle States, the South, New England and

be continued nearly through the year.
"Knight of Fertune" - Bjalmar Bjorth Boyesen's new novel-will be begun in Scribner at the conclusion of "His Inheritance." It will reyeal a phase of American society undreamed of by most of our readers, and will be certain to incresse the reputation of the writer as a master of English and of his art.

The Elitorial Departments will continue to employ the ablest pens in America, and will include the present admirable summary of Eng-

PHOTOGRAPHY By this art an ordinary Photograph can be transformed into a FINELY FINISHED ART PICTURE, strongly resembling Porcelain

Miniatures, and attracting the admiration of all beholders. Yet all this can be accomplished at a very slight cost by any person of ordinary skill and intelligence, and a picture of compara-tively trifling cost, rendered fifty times more valuable at a very small outlay of time and ma-

terial. This art is particularly adapted to ladies and others who are seeking light employment, whether for amusement or profit, and especially those who have skill in, or taste for, using oil or water colors, though it can easily be learned by all.

No acquaintance with photography is needed to produce these pictures. If sold they readily command \$3 for card size and \$5 for cabine size, each, with frames. Briefly, the process consists in transferring the photographic print to a convex glass, manufac-

tured expressly for the purpose, which is done by the use of the Adhesive Preparation, accompanying Brownell's outfit. It is then rendered transparent by means of the Diaphanous Liquid, (sold only in connection with Brownell's outfit,) and another glass being used, the picture is cotored and finished in the manner elaborately and fully described in the Instructions accompanying the outfit, which are improved and more complete than any other de-

tails which have been given to the public.

Directions for mixing and using both Oil and Water Colors are given, in addition to other necessary items, with Brownell's outfit—a neat Black Walnut Hinged Case, containing all materials necessary for this beautiful work, costing only \$2.50 and \$5 00 each, according to size. With the Diaphanous Liquid, Transparency

can be secured in twenty minutes. All materials for Chromo Photography, in cluding Brownell's Outfits, Convex Glass, Velvet Frames, best quality, of all sizes and descriptions, Card Board, Colors, &c., &c., &c., are supplied wholesale and retail by GEO. E. FRENCH, 95 King street.
